## Summary

Front-end developer with hands-on experience from internships and real freelance projects. Skilled in building responsive and pixel-perfect web interfaces using HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, and Bootstrap. Familiar with Next.js, Vite, and API integration using REST and JSON. Passionate about clean UI design, component-based architecture, and delivering consistent, scalable user experiences in fast-paced environments.

## Education

<b>Bachelor's degree in Computer Science</b> Egyptian E-Learning University (EELU)	2021 - 2025
<b>Front-end Development Diploma</b> Route IT Training Center	2023

## Experience

<b>Internship at Farapi</b> • Refactored code in projects achieving better efficiency and management • Developed landing pages and Web Apps using React JS (From Scratch)	June 2024 – December 2024
<b>Freelance Projects</b> • Delivered various responsive web projects to clients using React and modern UI tools	Freelance

## Projects

<b>Volna Website</b> • A freelance project for an accessories brand, aimed at introducing the brand and showcasing products with prices and detailed descriptions. Built using React and Tailwind CSS, with Context API for state management. No design files were provided, so I created the UI based on visual references from similar websites. Faced performance challenges due to unnecessary re-renders in dynamic components, which I successfully resolved using React.memo, useMemo, and useCallback, leading to a noticeably smoother and faster user experience.	Volna.com
<b>NoteKeeper App</b> • A modern note-taking app developed using React.js and Bootstrap, supporting user authentication and complete CRUD operations. Allows users to manage their notes effortlessly through a clean, responsive interface, with API integration to ensure smooth data handling across devices.	Note-App.com
<b>Personal Portfolio</b> • A fully responsive personal portfolio website built with HTML5, CSS3, Bootstrap 5, and JavaScript. • Designed to showcase my projects and skills in a clear and structured way, with smooth navigation and responsive design.	My-Portfolio.com

## Skills

**Technical Skills:** HTML5, CSS3, Bootstrap 5, Tailwind CSS, JavaScript (ES6+), React JS, React Query, Redux & Redux Toolkit, Git & GitHub

**Familiar With:** Next JS

**Soft Skills:** Communication & Collaboration, Problem-Solving & Attention to Detail, Time Management & Adaptability
